AMOY NOTES.

(From Our Own Correspondent.)

AMOY, September 24.

The S.S. Inverelyde arrived in port two days ago from New York via Hongkong, bringing a general carge, the larger part of which is bridge material for the Amoy to Changehow railway, shipped from America. The Amoy coolie has an chance, tries to get the upper hand of the mususpecting skipper of the merchantman. The coolies on the Inverciyde worked one day, and the next they thought they would stick out for higher wages. But they had met their match this time, for the skipper, metaphorically speaking, kicked the whole lot over the side, telling them at the same time that he would do Delicately Perfumed. , the discharging of the cargo himself, which he and his erew are doing. It is to be hoped the whole body of coolies here have had a salutory lesson, and if only other skippers would ket likewise when thus imposed upon, a much better state of Atlairs, might result.

The local agents for this steamer are Messes Douglas, Lapraik & Co.

PREPARATIONS FOR THE PLEET, I paid a hurried visit to the Race Course, where extensive preparations are going on for the coming visit of the American fleet. A large wooden jetty is being built, leading on to a broad, well made road, which will take one to the centre of things. Another excellent road has been made from the Race Course to the Nam 1 5 To temple. Big bamboo houses, roofed with cocasnut matting, are being creeted all round the course, and in the far corner, where the old pavilion used to be, a house capable of seating 3000 men at one time is now in the process of completion. A number of skilled builders from Canton have lately arrived, and the whole place is a perfect hive of industry. The electrical plant is also under way, and is under the supervision of an European Engineer? AMOY NEWSPAPERS.

An unfortunate quarrel has broken out between the two leading Chinese Daily papers here, the E Mng Po (厦門報) and the Tsoan Bian Po. (全国報) The former is owned and edited by a member of the Yap family, and the latter by a maman, who is a Japanese subject. It appears that the whole matter started by the E Mng Po suggesting that its competitor provided reading for beggars, small boys, and such like people, and that it really was rather a feeble rag. This was very naturally resented by the persons concerned, who managed to find, or imagined they, had found, some shady things about the ancestors of the editor of the E Mng Po. This again was hotly denied, and so the quarrel was started, and it bids fair to stir up a vast amount of ill-feeling. There is also some trouble about the Railway that is now being built. paper affirms that funds have been mis appropriated, and large sums of money been needlessly wasted in one way and another. There seems to be no doubt that shareholders are now very unwilling to subscribe any more money and are suspicious.

In a crick t match at Colombo between id the time-expired crew of the Astraca, ajor Merriman an old member of the S.C.C. twenty years ago had an excellent time. He made 106 out of 211 in on hour and half without giving His score included two sixes and 12 lours. Major Merriman also captured 6 wickets for 20 runs. It is only fair to say however that the Naval fielding was weak, and the Astraca had only one good

### PENSIONS.

In answer to a request from a Labour member, the British Government has issued Blue Book showing the pensions now being paid to retized officials and others. Among those receiving £1,000 a year and over are the following :-

Sir H. Drummond-Wolff (ex-Ambassador) ... ... £1,700 Sir E. B. Malet (ex-Ambassador)... 1,700 Sir E. Monson ex-Ambassador) ... 1,700 Sir H. Rumbold (ex- 4 mbassador) ... 1,700 Sir C. Scott (ex-Ambaseador)... 1,700 Sir J. G. Kennedy ... Sir E. C. H. Phipps ... ... 1,300 Sir E. M. Satow (ex-Minister to Sir G. H. Wyndham

Sir Henry H. Blake (ex-Governor of Hongkong) .. ... 1,000 Sir William Robinson (ex-Governorof Hongkong) ... ... 1,000

Lord Stanmore ... 1,000 Mr Byron Brenan (ex-consul, Shanghai) ... ... 1,166 Mr G. Jamieson (ex-consul, Shanghai) ... 1,083 Sir J. Kirk (ex-consul) ... ... 1,837

Mr R. A. Mowat (ex-Judge of H. B. M. Court for Japan) ... ... 1,166 Sir Percy Sanderson ... ... 1,133 Sir H. S. Wilkinson (ex-Chief Judge of H. B. M. Court for China and Korea) ... 1.387 Sir G. W. Kekewich ... ... Mr D. C. Richmond

Lord Sanderson ... 1,533 Sir C. W. Fremantle ... ... 1,166 Sir H. R. Lack... 1,000 Mr J. Sheil (ex-magistrate) ... 1,000 The pensioner who has drawn the biggest sum from the State is Sir George Fardell, M.P. for North Paddington, who has re-

816 ceived in all over £24,000. This pension was granted in 1872, when the office of Registrar of the Court of Bankruptcy was abolished. Sir George Fardell, who was then only 38 years of age, was in receipt of a salary of £1,000 a year. For 36 years his pension has been £666 13s, 4d. Mr T. J. Millar, who was a "Manchester Messenger" in the Court of Bankruptcy, whose office was abolished, has been draw-

ing a pension of £266 13s. 4d. since 1872. As he was 54 when he retired Mr Millar is now 90 years of age. To these Civil Service pensions must be udded a list of the pensions drawn regular-

ly by ex-Ministers of the Crown on the ground that they could not otherwise umintain themselves befittingly. These are :--

Lord Cross ..... £2,000 a year Lord G. Hamilton ...... £2,000 a year Mr Chaplin ...... £1,200 a year | Quiarres, &c., &c. Sir John Gorst £1,200 a year Lord Balfour of Burleigh £1,200 a year Mr Gerald Balfour ..... £1,200 a year

There is a case on record of an ex-Minister who drew 430,000 in this way, and yet left a fortune of more than a quarter of a million when he died.

Nervous Disorders, Exhaustion, Overwrought Nerves-

Over and over again clever and capable people find themselves without a scrap of energy to do the work that is offered them, and this actually was the predicament of a skilled and experienced hospital nurse, who tells us she was: so prostrated by nervous exhaustion and overwork, that had it not been for the abundant energy and nerve force she derived from Phosferine, she must have refused a most desirable appointment. Our correspondent states that whenever she feels her work getting 'too much' for her she braces up her system with a course of Phosferine; such an assurance from a trained hospital nurse is practical evidence of the unfailing efficacy of Phosferine in all nervous disorders. There is proof-absolute proof, from the Royal Families of Europe, proof from great doctors like Dr. Gordon Stables, M.D., C.M. from famous singers like Caruso, athletes so renowned as C. B. Fry and Apollo, proof final and conclusive that whatever nervous disorder they suffered from, Phosferine cured it, however exhausted the system was, Phosferine recreated and increased their energy and vitality.

Cured Outright.

A Hospital Nurse writes: - "On several occasions I have derived great benefit from taking Phosferine. The last time after nursing a near relation through a long and trying illness, I was thoroughly exhausted and run down, and the slightest exertion made me painfully ured, but even one bottle of Phosterine worked wonders, the distressing symptoms disappeared, and I can now walk miles without experiencing any feeling of fatigue or weakness. In other respects I have found Phosferine an excellent tonic and restorative for overwrought nerves, and in any derangement of the nervous system it is a remedy that I can confidently rely upon to fulfil all that it claims to accomplish. Particularly for the long hours and careful attention that I must necessarily devote to my cases, the best preparation is a course of Phosferine, as in this way I obtain sufficient energy to carry out the most exacting work without feeling any ill effects."-April 29, 1908. > LANCASHIRE LOCK-OUT. London, September 22.

The English newspapers are publishing columns of matter dealing with the lock-out of cotton trade operatives in Lancashire. The fight is recognised as one between two of the greatest combinations of capital and labour in England, and both are well supplied with funds. As the whole of the cotton industry is

dependent upon the spinning mills, it is estimated variously that a prolongation of the struggle will cause, eventually, 400,000 the rat

CONSTIPATED FOR THREE YEARS.

BILE BEANS EFFECT A CURE.

DILE BEANS have once again demon-D strated their superiority over medical An Euglish lady, Mrs Ann Maria Jeffe, at Frankley, Worccater, suffered so severely from constipation which doctors failed to relieve, that she was regarded incurable. Bile Esans, however, succeeded 819 where all other remedies had failed, and CAPITAL PAID-UP Mrs Jeffs once more enjoys the blessings of RESERVE BUNDS good health. Speaking of her suffering. and cure, she says :-

For three years I suffered acutely from constipation, which brought on lassitude, and over-powering droweiness. At times the pains I experienced after taking food were so had that I actually fasted for three days to avoid them. I was always dull and heavy, and suffered from headaches and awful depression.

A local doctor was consulted, but obtained no results from his medicines, and continued to get worse. My condition eventually became so critical that my hasband and friends thought my days were umbered. 'Nothing would stay on my stomach-

not even a drop of beef tea or a little boiled

in'my system, I wasted away to a mera

My husband heard of Bile Beans, and as a last hope we got a supply. I perse. For 3 months, vered with them, and the fact that they were going to ours me soon became dear. Soon after beginning to take them I passed two great gall stones. The passing of these gave me great pain, but when the pain subsided my bowels become easier and the constipution left me altogether. Every week I got better, the allments I had suffered from disappeared, and in the end I was completely rectored to licalth. I met my dictor while the cure was in progress. He asked the cause of my improvement and when I told him he said If Bile Beans have made this wonderful change in you, by all means continue them. Another day I was stopped by our minister, who, on hearing what had cured one said: The change is so wonderful it is your duty to write to the Bile Beans Co. and thank them. Bile Bons are new our family

The above sensitional case proves conclusively that Bile Beans can cure the worst case of stomach and intestinal disorder. They are equally effective for debility, bilioume a consulpation, piles, nervoluces, sounds, female silments, weakness, pains in the back, alcopiesspess, loss of appetite, congo tion of the liver, beadsche, flatulance, pimples, and akin eruptions. HONGKONG, TUEYDAY, SEPT. 29, 1908. CHINESE ECLIPSES!

Confucius records thirty-seven eclipses of the sun during the period of 241 years covered by his own annals, B.C. 722-481, the first in date being in the spring of 720, and the last in the year in 669. Convucius adds "drums were 481, when he gave up recording two beaten and victims ascrificed." Tso calendar which he employed was that of the Imperial Chou dynasty, to the principles of which his own state of Lu, Southern Shantung, had always remained staunch, and to which the rulers of Lu were lineally connected by blood. This year was two months ahead of the most ancient and also of the later and he present Chinese year, that is to say his first moon, for the Chinese months are strictly lunar, was the eleventh month of the earliest and of the subsequent dynastics, so of course for this

solar year into line with the lunations twelfth moon of 546, twelfth cyclic so that three years would roughly cover day, a commentator similarly shows eighteen and a half cycles of sixty days that it must have taken place on the each. Thus, if we know to day to be first day of the eleventh moon. But the fortieth day of the cycle, by count- Tso Kan-Ming, who notices this eclipses ing back 16,650 cycles of sixty days, we remarks that, judging from the zodiacal reach the fortieth day of some cycle position of the sun, there must have 2,700 years ago, and if the exact date is not hit off correctly, it must at least be sixty days before or after, or a multiple been observed in Shansi as well as in of sixty days. All these Confucian eclipses take place on the first day or night of each new moon, and it i usually so specially stated, where it is not so stated on which of the two it was, the commentators of 1,000 years or more later date generally remark that th astrological recorders have carefully omitted the words, "first day." ### PREVENTION OF INFECTION.

The Committee appointed by the Sanitary Board, to consider the byc-laws with regard to infected premises, have drawn up some revised bye-laws, which were submitted at the meeting this afternoon, for the regulation of Disinfection of infected premises; removal of patients presidency of the Hon.-Mr F. H. May, prevention and mitigation of epidemic.

endemic and contagious disease. DrPearce, M.O.H., a member of the committee, in a letter to the President of the Board wished to add that in his opinion the diseases, measles, whooping cough and puerperal fever, should be included in the definition of epidemic, endemic, contagious and infectious disease and contained in byelaw 1 under the head "Disinfection of infects d premises", and bys-law 5 underthe head, "Removal of patients."

Hon Mr H. W. Slade minuted: -- Messles and whooping cough can at any time be brought under this definition by special resolution if considered necessary.

Mr Shelton Hooper :-- I do not think measles or whooping cough should be in-

THE LATE MR WILLIAM

JACKSON. The death has occurred at an advanced age, of Mr William Jackson, formerly manager, and subsequently a director, of the Mercantile Bank of India. The late Mr Jackson joined the old Mercantile Bank of India, London, and China, on Jan. I, 1856, which was incorporated in 1858 under the style of The Chartered Mercantile Bank of India, London, and China. In 1861 he was manager in Shanghai; in 1864 he was appointed inspector, and in 1876 came to London as assistant manager. On the retirement of Mr D. T. Robertson in 1882, Mr. Jackson was papointed chief manager, a post which he held for 10 years until the absorption of

Passengers by the P. and O. Company's Indian mail steamer Arabia, which called at Plymouth on Aug. 23, have been the unwilling witnesses of a terrible tragedy, a very popular member of the crow, Wm. Newbury, being eaten by a shark. Newbury, who was twenty-six years of age and married, was storekeeper. For some days a large shark had been observed following the vessel. When the liner was in the that element had done a great deal for their vicinity of Cape Finisterre there was was told that at present there was a move- shout of "Man overboard!" Next moment everyone's heart leapt as the thought of ment on foot to form a German four and the shark occurred. Quickly the ship was he wished it every success. That was what swung round, and a boat was manued. The they wanted-a little healthy rivalry in man, who proved to be Newbury, was the half-yearly meeting of the shareholders communication had been stationed on these cousins was that they did not go in for From the deck he was seen to be keeping Mr Bytheli regretted the setback-itislands, that it is possible the serious yachting as much as they ought to. For carrying passengers on his unlicensed boat, a master was fined \$10 at the Marine

The Japan Mail understands that Capt. C. T. S. Filmer, of the Hongkong Maris, has res good from the Toyo Kison Kaisha's service. He left on the 22nd Sept. by the America Maru for San Francisco where he has very promising business prospects it partnership with his brother-in-law.

The stenmer Rubi (Capiain Almond), arrived from Manila this morning. She reports having light S. W. airs and calm, clear weather with heavy westerly swell till 10 p.m. on the 20th inst; thence to port variable winds and heavy rains.

Mr Norman Taylor, second officer of the Yuensang, has been sentenced in Manila to a year's imprisonment and fined 1000 pesos for having in his possession 49 cans of opium; and he was also fined 500 pesos for being in possession of several lottery tickets. Mr Taylor is a married man with one child and this was his first offence.

An addition was made on the 26th ult. to the fleet of steamers owned by the Ocean Steamship Company, Limited, of Liverpool (Messra, Alfred Holt and Co., Limited), by the launch of the steamship Theseus. The vessel has been built by Messrs Workman, Clark and Co., of Belfast, and is 450 ft. in length, with a gross tourage of 6,800, and is intended for trade to the Far East. This is the eighteenth steamer built in those works for the Ocean Steamship Company's fleet. Staterooms for a number of saloon passengers have been arranged on the boat deck. The ventilation of the passenger accommodation throughout has received special attention.

The Russian Admiralty has resolved to accept the tender of Messes Blohm and Voss at Hamburg for the construction of new battleships. The Kaiser tolegrahed congratulating the directors on this regult. The order for the Emperor's new racing yacht has just been placed with the Germania yard at Kiel. The vessel is to cost about £50,000, and His Majesty has ordered that as far as possible the material employed in its construction is to be drawn from native firms. It seems that the present state of business at the German ship-yards is not so gloomy as was expected. The directors of the Neptun wharf at Rostock report that the wharf has up to the present been fully occupied, and still has to deliver several vessels. At the general meeting of the Eider Wharf at Toenning the chair man stated that the demand for vessels is increasing. An extraordinary genera meeting is to empower the directors to issue new shares .- L. and O. Express.

The Toyo Kisen Kaisha was to hold its semi-annual meeting on the 20th instant. The results of the half-year's working, says the Japan Mail, have not been satisfactory. not been for considerable shipments of kerosene oil the outcome would have been still worse. The Tenyo Maru has began her career most successfully, but as her first trip was not made until June, she scarcely affects the accounts at all. The Company is nevertheless able to place Y10,000 to its reserves and to pay dividend at the rate of five per cent on ordinary shares, after paying 12 per cent on its preference shares That is not such a bad showing; yet the Company's shares (Y.50 paid up) are now quoted at Y.25 in the open market.

The Japan Gazet's says that a shocking accident occurred on board the Toyo Kisen Kaisha's liner Hongkong Mara during her voyage from San Francisco to Yokohama, where she arrived on the 16th inst. It appears that on the afternoon of the 1st The Suspicions of Ermingarde, by Maxinet. a member of the crew of that liner, which left San Francisco on August 29, Forecast for the 24 hours ending at noon attempted to carry a cask containing Mr Glutterbuck's Election, by H. The Hongkong Maru also met a typhoon on the night of the 13th, when she was about 700 miles off Yokohama, Har deck was washed by waves and the wireless line severed. The vessel was disabled for a time. The wind ceased on the afternoon of the 14th, and she was able to enter Yokohama at 11.30 a.m. on the 16th without sustaining any particular damage None of the passengers or crew sustained

### SITUATION IN TONKIN.

The more the troubles in Tonkin are probed into, remarks the Straits Times, the more evident it becomes that they are connected with the revolutionary agitation

Chinese revolutionists have started a Chinese newspaper at Paris, which advocates the extremest form of anarchism, the murder of political opponents, and th confiscation of their property being promin ent planks in the programme. This pub lication, called the New Times, circulates in Tonkin, and takes its place among the seditious literature which poisons the minds of the people. The Avenir du Tonkin wonders why the Government does not forbid its circulation there.

These Chinese anarchists leave the representatives of Young China far hehind. They stand out squarely for revolution pure and simple and laugh at all timehonoured Chinese ideals. Confucius, who, as sage, now enjoys almost divine honours in China, is nothing to them. Whatever he was in the past, he is no saint in our days. The world has moved since his time. These new Chinese say plainly that it is all over with the teaching of Confucius that progress lies in looking back and not in looking forward.
